

ecoTEC exclusive with Green iQ

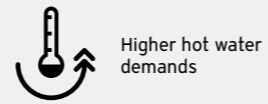

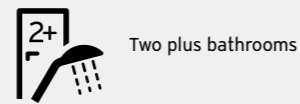

System boiler

 **Vaillant** Comfort for your home

System boiler

Best suited for:

What are the advantages?

-  **Constant hot water**
-  **Quick installation**
No need for a loft tank
-  **Energy efficient**
reduce your carbon footprint and save money on your fuel bill
-  **Prevents frost damage**
-  **Designed for a peaceful home with Quiet Mark**
-  **Choice of app controls**

What is a system boiler

System boilers need a cylinder to store hot water, but system components are built into the boiler itself, so there is no need for a cold water feed and expansion tank in the loft. System boilers can give a constant supply of hot water to a number of taps at the same time. With no need for a loft tank, system boilers free up space and eliminate worries about leaks or frost damage. They can also work with solar water heating systems and heat pumps, making a great entry into renewable heating solutions.

Key features

- ErP A rated boiler with up to 94% efficiency, helping you to reduce carbon and save money on your fuel bills
- Premium quality stainless steel heat exchanger for superior heat transfer and highly efficient performance.
- 85% recyclable
- Automatically adjusts to any type of gas
- Quality German design and engineering which is manufactured at award-winning UK facilities
- One system model with a 27kW heating output
- Designed for a peaceful home, the ecoTEC exclusive is awarded the Quiet Mark for its reduced noise
- Built-in heat recovery system to further reduce energy bills
- Compatible with Vaillant's vSMART™ app based control for heating on the go

ecoTEC exclusive Green iQ 627 High efficiency system boiler

The ecoTEC exclusive with Green iQ system boiler can modulate its output from 27kW down to just 3.4kW, dramatically reducing fuel consumption and your energy bills.

All ecoTEC exclusive boilers offer low energy consumption and premium components to give outstanding performance.

Each one is ultra-quiet, awarded the Quiet Mark for innovative reduced-noise design by the Noise Abatement Society, and designed for a peaceful home.

Dimensions and Output

Model	627
Output	27kW
Boiler height (mm)	720
Boiler width (mm)	440
Boiler depth (mm)	338

*Up to 10 years when installed by a registered Vaillant Advance Partner
